ADVANCED OMEGA

Nutrition | Daily Health

The function and health of both your brain and heart decline as you age. And they can be further impacted if, like most people, your diet is low in essential Omega-3 fatty acids – the “building blocks” of your brain. Advanced Omega is a potent combination of 3 essential Omega-3 fatty acids, designed to help your brain, heart, and metabolism function at the highest level on your health journey. Advanced Omega combines EPA and DHA together with the cutting-edge DPA fatty acid for superior memory, focus and other cognitive function, while helping to support your body’s natural fat-burning metabolism.

AXION
